Acknowledgement of Country

CSIRO acknowledges the Traditional Owners of the land, sea and waters, of the areas that we live and work on across Australia. We acknowledge their continuing connection to their culture and pay our respects to their Elders past and present. View our [vision towards reconciliation](#).

About CSIRO

As Australia's national science agency, CSIRO is solving the greatest challenges through innovative science and technology. Many of our iconic innovations were once considered impossible until someone, just like you, joined us and took on the challenge.

As one of the world's largest multidisciplinary mission-driven research organisations, we are focused on the issues that matter the most: for our quality of life, for the economy and for our environment. We believe diverse teams are more effective and deliver more innovative outcomes. When we all focus on the big things that really matter, and work in partnership with

our communities and [Indigenous Australia](#), Australian science and technology can solve seemingly impossible problems and create new value for all Australians. Visit [CSIRO.au](#) for more information.

Role overview

The Digital Health Business Development Manager, Partnerships & Business Development (P&BD), works across boundaries, engaging researchers during the planning, evaluation, and validation of research opportunities to identify appropriate paths to market and impact, optimal business models, and the partners and stakeholders to engage for success.

The role will undertake early partnering discussions leading to better outcomes by clarifying (and working to align) partners' drivers for engagement, scaling opportunities (recruiting additional capability/capacity from within CSIRO or through partners as appropriate), and managing relationships. The role will support substantial impact and revenue opportunities associated with specific Research Units as well as support cross-organisational opportunities. They will coordinate with other P&BD team members and other Enterprise Units on prioritised projects with the purpose of applying the same approaches to optimise CSIRO's overall opportunity portfolio.

Duties and key result areas

- Actively contribute to influence and implement a P&BD strategy that drives impactful innovation and science.
- Through confident guidance, articulate the value of early engagement with partners to optimise the scope, scale, business model, and impact of research partnerships up to the level of ecosystem coalitions, in a way that crosses CSIRO boundaries and empowers the P&BD team and wider organisation
- Acting with the broad scope of digital health, partner with researchers across boundaries to grow the scale of CSIRO's partnering and business development activities including research partnerships with universities, industry and government up to enterprise level coalitions.
- Represent CSIRO in engagements with relevant stakeholders and engage strategically with priority industry and government relationships.
- Working collaboratively with Research and Enterprise Unit colleagues, ensure optimised business and commercial outcomes are negotiated and managed for all relationships, including strategic partnerships and stakeholder engagement.
- Undertake activities that successfully support project ideation, development and execution.
- Implement programs and initiatives to improve how CSIRO engages with relevant stakeholders, industry, universities, and the broader innovation community.
- Provide persuasive, commercially sound, professional advice and solutions in a complex and dynamic environment of time pressure, divergent views and agendas, legislative requirements and conflicting priorities.
- Work collaboratively as part of a multi-disciplinary, regionally dispersed team to carry out business development and commercialisation objectives.
- Ensure legal, ethical and professional practices together with CSIRO values and Code of Conduct are adhered to.

- Adhere to the spirit and practice of CSIRO's Values, Code of Conduct, Health, Safety and Environment procedures and policy and diversity initiatives.
- Other duties as directed.

Selection criteria

Essential

Under CSIRO policy only those who meet all essential criteria can be appointed.

1. Relevant bachelor's degree or equivalent relevant work experience in a relevant science area relevant to digital health, and/ or with business and commercial qualifications.
2. Demonstrated business acumen, including in the functioning of publicly funded research organisations, and negotiating successful multi-stakeholder partnerships with industry, government, and other research institutions.
3. Demonstrated business development experience in digital health technologies, including digital health and genomics for human and/or animal health applications.
4. Demonstrated experience in commercialisation of digital health technologies for human and/or animal applications, including how industry and/or governments (large and small) adopt technology, and commercialisation pathways including licensing and venture creation.
5. Demonstrated understanding, networking, and engagement with the Australian health sector including the digital health technologies ecosystem.
6. Demonstrated experience in supporting funding applications to Australian research and development agencies or the private sector for digital health and/or genomics research projects.
7. A demonstrated history of professional and respectful behaviours and attitudes aligned to CSIRO values in a complex working environment with both internal and external clients/partners and colleagues that encourages new ideas, builds trust and supports the development of beneficial outcomes.
8. Strong relationship management skills and the demonstrated ability to use complex influencing strategies, to advise and support colleagues, internal & external stakeholders to achieve CSIRO's strategic objectives.
9. Excellent communication, interpersonal and negotiation skills, including experience working with a broad range of stakeholders, and science, commercial or engineering staff and a proven ability to work with and influence outcomes across all levels in an organisation.
10. A growth mindset, proven ability to anticipate, manage and develop appropriate solutions to complex problems, effectively manage ambiguity and readily adapt to changing circumstances.
11. Proven ability to develop, advance and maintain and client/partner leads to achieve specified outcomes to achieve significant opportunities in partnership with Research Units.
12. Demonstrated experience in successful project management, including planning, engagement, monitoring and reporting to meet or exceed specified outcomes and timeframes.

Not sure if you meet all the criteria?

While it is CSIRO policy that the successful candidate must meet all the essential criteria, there are many ways to demonstrate this. Don't let the list discourage you. If you are unsure about applying, please reach out to the contact on page 1 of this document so we can discuss the role further.

Required competencies

- **Teamwork and collaboration:** Cooperates with others to achieve organisational objectives and may share team resources in order to do this. Collaborates with other teams as well as industry colleagues.
- **Influence and communication:** Identifies critical stakeholders and influences them via an influential third party, for example through an established network, to gain support for sometimes contentious, proposals/ideas.
- **Resource management/leadership:** Provides leadership that fosters an environment that encourages new ideas and provides support for the development of emerging skills. Creates trust by displaying consistency, understanding, integrity and patience. Plans, seeks, allocates and monitors resources to achieve outcomes.
- **Judgement and problem solving:** Anticipates and manages problems in ambiguous situations. Develops and selects an appropriate course of action and provides for contingencies. Evaluates, interprets and integrates complex bodies of information and draws logical conclusions, synthesises proposals and defends options with reasoned arguments.
- **Independence:** Assesses the risk and opportunity of identified strategies, options and actions. Overcomes problems and setbacks in achieving goals. Invariably includes consideration of value-added future impact on bottom line when determining the optimal and efficient use of resources.
- **Adaptability:** Demonstrates flexibility in thinking and adapts to and manages the increasing rate of organisational change by adjusting strategies, goals and priorities.

Life at CSIRO and flexible working arrangements

We [work flexibly at CSIRO](#), offering a range of options for how, when and where you work. We can discuss flexible work arrangements with you during the recruitment process.
