

Australia's National  
Science Agency

# Head of Science, Australia Telescope National Facility (ATNF), CSIRO

## Information for applicants

### **Acknowledgement of Country**

In the spirit of reconciliation, CSIRO acknowledges the Traditional Custodians of country throughout Australia and their connections to land, sea and community. We pay our respect to their Elders past and present and extend that respect to all Aboriginal and Torres Strait Islander peoples today. View our [vision towards reconciliation](#)

### **Child Safety**

CSIRO is committed to the safety and wellbeing of all children and young people involved in our activities and programs. View our [Child Safe Policy](#).

# About CSIRO

We are Australia's national science agency, solving the greatest challenges through innovative science and technology.

CSIRO is one of the world's largest and most multidisciplinary mission-driven research organisations, creating a better future for Australia.

We are:

- a statutory corporation within the Australian Government's Industry, Science and Resources (DISR) portfolio.
- established and operate under the *Science and Industry Research Act 1949 (Cth)* (SIR Act).
- a corporate Commonwealth entity for the purposes of the *Public Governance, Performance and Accountability Act 2013 (Cth)* (PGPA Act).
- align with the DISR portfolio Budget Statement outcome statement, and give effect to our Ministerial Statement of Expectations, to deliver value to Australia.

In 2022, we were named the most trusted government service in Roy Morgan's Trusted Brand Awards. We are also a highly connected innovator, working with universities, governments, Australian businesses of all sizes across all major industries and communities around the country.

With more than 6,000 staff, we contribute to Australia's national prosperity as well as creating environmental and social benefit.

To find out more about our purpose, vision, values and the challenges we are solving, visit [www.csiro.au](http://www.csiro.au).

# About the Australia Telescope National Facility

CSIRO operates several radio astronomy observatories and data archives that are collectively known as the Australia Telescope National Facility (ATNF). Our technology development program is the cornerstone of the ATNF and is an internationally recognised source of innovative radio astronomy instrumentation, which leads to societal impact.

The ATNF includes:

- the ASKAP radio telescope with its wide field-of-view in a legislated radio quiet zone,
- the Australia Telescope Compact Array with its wide frequency coverage, quick response times and flexible configurations,
- Murriyang, our Parkes radio telescope, which is the only large single-dish radio telescope dedicated to science observations in the southern hemisphere,
- the Long Baseline Array (LBA) providing VLBI baselines across Australia,
- the Mopra antenna, which is used for single-dish observations, particularly at millimetre wavelengths and as part of the ATNF during LBA sessions,
- astronomical data archives that currently provide 10PB of data, as well as various catalogues, databases and software packages used for obtaining and processing data from our facilities, and
- a comprehensive range of expertise, spanning from the intricacies of front-end receivers to deploying machine learning algorithms for analysing the vast data volumes contained within our archives.

For two semesters each year, the ATNF accepts Principal Investigator-driven proposals from the national and international community. ASKAP also carries out long-term science programs driven by large science teams.

The ATNF has been involved with the international SKA project from its inception, has contributed to its design, and is delivering the beam-forming instrumentation and local infrastructure for the SKA-Low telescope in Australia. In Australia, CSIRO is partnering with the SKA Observatory to build and operate the SKA-Low telescope. The ATNF's locations, telescopes and engineering expertise are in an excellent position to support and extend the science goals of the SKA telescopes over the next decade.

The ATNF forms part of the Space & Astronomy research unit, and together we aim to enable humanity to understand our Earth and Universe. This understanding, and our innovative science and technology, contributes to solving the greatest challenges, building future industry, and serving customers from across Australia and the world.

## Role Summary

<b>Tenure</b>	Specified term of five years, with the possibility of an underlying indefinite research appointment.  Full-time or Part-time (4 days minimum)
<b>Salary Range</b>	Attractive salary package negotiable for the right candidate + 15.4% superannuation.
<b>Location</b>	Consideration given to Sydney (Marsfield), Perth (Kensington), Parkes or Narrabri
<b>Travel</b>	A willingness and ability to travel interstate and, as required, internationally.
<b>Relocation Assistance</b>	Will be provided to the successful candidate if required.
<b>Applications are open to</b>	All Candidates who meet the requirements of the role.  VISA sponsorship will be provided as required.
<b>Position reports to the</b>	ATNF Program Director
<b>Direct reports</b>	7

---

# Role overview

Reporting to the ATNF Program Director, the ATNF Head of Science will focus on enabling science excellence across our facilities, leading the team, and supporting our user community. This role involves collaborating with other ATNF leaders to make informed decisions on personnel capabilities, managing budgets, and overseeing key programs, including the ATNF student and Postdoctoral Fellow initiatives. The Head of Science will ensure effective, tailored support for users, and will engage with the ATNF Users' Committee while overseeing the Time Assignment Committee.

## Duties and key result areas

### Staff leadership

- Attract, develop and support staff from a diverse range of backgrounds and foster a creative culture that supports excellence in research.
- Coordinate the deployment of staff to projects and operations in consultation with the ATNF leadership team.
- Champion diversity in its broadest sense and develop initiatives to grow and support diversity across CSIRO as a driver for excellence and impact.
- Actively promote an inclusive, safe and environmentally sustainable workplace.
- Model appropriate and professional behaviour in the workplace and manage people matters proactively.

### Operational leadership

- Manage the ATNF science portfolio within budget and ensure that reporting is timely and informative.
- Ensure effective and tailored user support.
- Engage with the ATNF Users' Committee and oversee the Time Assignment Committee
- Ensure quality delivery of ATNF student and postdoc programs.
- Proactively manage budget and ensure financial sustainability.

### Engagement & partnerships

- Build deep and trusted relationships with relevant internal and external stakeholders, including ATNF Users' Committee.
- Communicate openly, effectively and respectfully with all staff, clients and suppliers in the interests of good business practice, collaboration and enhancement of CSIRO's reputation.
- Represent CSIRO in engagements with relevant stakeholders.

## Required competencies for CSIRO leaders

- **Teamwork and collaboration:** Creates and fosters an environment in which there is a high level of cooperation within and between teams. Facilitates positive team relationships to build interactions across Research Units and the organisation.
- **Influence and communication:** Uses complex influencing strategies, for example, assembling strategic coalitions, building behind the scenes support and the tactical use of information to gain support.
- **Resource management/leadership:** Provides leadership that fosters an environment that encourages new ideas and provides support for the development of emerging skills. Creates trust by displaying consistency, understanding, integrity and patience. Plans, seeks, allocates and monitors resources to achieve outcomes.
- **Judgement and problem solving:** Resolves major conceptual scientific, technical, commercial or management problems, which have a significant impact upon the field of

research, professional function, the Research Unit or the Organisation. Situations faced have little or no precedent and require original concepts and approaches.

- **Independence:** Commits significant resources in the face of uncertainty and takes calculated risks to improve performance and achieve challenging goals. Uses personal energy to drive change strategies. Formulates and implements contingency plans to minimise the impact of potential risks. Accepts personal responsibility for the outcomes of decisions/risks taken.
- **Adaptability:** Is flexible in response to external change or when faced with external constraints. Identifies and promotes the opportunities arising as a result of change.

## Selection criteria

### Essential pre-requisites

- A PhD (or an equivalent combination of qualifications and research experience) in radio astronomy, astrophysics or a related area.
- Experience in leading a high-performance culture in a research environment/organisation, including the integration of Health, Safety & Environment and Diversity, Equity & Inclusion into normal business processes.
- Experience of financial management (including but not limited to) budgeting, forecasting and resource management.
- Ability to engage with a broad range of stakeholders and build strategic collaborations.

### Professional ethics

- A demonstrated record of adherence to professional ethics and conduct, including professional and respectful workplace behaviour.

### Travel

- A willingness and ability to travel interstate and, as required, internationally.

### Desirable pre-requisites

- Research leadership experience in radio astronomy or relevant field.

## Special and essential requirements

The successful candidate will be required to undertake a **National Police Clearance** or equivalent. There may also be other potential background checks required.

Please note that individuals with criminal records are not automatically deemed ineligible. Each application will be considered on its merits.

If the successful candidate is not an Australian Citizen or Permanent Resident, they may be required to undergo additional security clearances, which may include medical examinations

and an international standardised test of English language proficiency (i.e. IELTS test: <https://ielts.com.au/>)

## Flexible working arrangements

We work flexibly at CSIRO, offering a range of options for how, when and where you work. Talk to us about how this role could be flexible for you. *Work life balance.*

## Diversity and inclusion

At CSIRO, diversity, equity, and inclusion are at the core of who we are. They are fundamental to our mission and to our impact. We understand that diverse perspectives drive innovation and helps us to better understand the complex challenges we seek to solve at CSIRO.

Inclusion underpins how we treat our team at CSIRO. Therefore, we're continuing to build a safe and welcoming culture where people can bring their whole selves to work, and ensure that everyone at CSIRO feel supported to do their best work and feel empowered to let their ideas flourish. Our success rests on our ability to acknowledge and understand intersectionality, recognising the diverse experiences, identities, relationships and social factors that shape each individual. By fostering a thriving culture that embraces differences, we believe in, and respect, the power of diverse perspectives and learn from the uniqueness of our people.

We are committed to the safety and wellbeing of all children and young people.

## Eligibility

Applications for this position are open to all candidates. Visa sponsorship may be provided to the successful candidates if required.

## To apply

As part of the application process, we ask that candidates provide the following:

- **Curriculum Vitae** - outlining relevant aligning career experience and key achievements.
- **Cover Letter or Executive Summary** - outlining the motivation for applying and a high-level summary response to the selection criteria described in the position description. This document should not be longer than 1,000 words.

CSIRO is a values-based organisation. At interview you will need to demonstrate behaviours aligned to our values of:

People First

Trusted

Further Together

Making it Real

**Please note that Applications close 11:59pm Australian Eastern Standard Time, Wednesday 4 September 2024.**
